Salon Films was established in 1959 starting with the production of Hollywood movie "The World of Suzie Wong" in Hong Kong. Since then, Salon Films has committed to providing top-notch, one-stop service to the film and television industry. Based in Hong Kong, Salon Films' footprint has covered all over China and South East Asia, with offices in major Asian cities such as Beijing, Shanghai, Guangzhou, Kuala Lumpur, Singapore and Tokyo.

FILMING EQUIPMENT RENTAL

Being the most established equipment rental company not only in Hong Kong, but in Asia, we provide a full range of filming equipment and professionally trained technical staff versed in operating everything from 35mm to 8K Digital Cameras, as well as the most up-to-date lighting equipment.

J.L. Fisher

We treat our clients' needs as our first priority. We offer maximum flexibility and availability in all equipment rentals, with well-trained technical personnel as clients' strongest backup for production.

Salon Films has had the longest-standing partnership with revered brands like Panavision® cameras and Chapman® Dolly, providing world-class equipment and technological support to classic films shot in Hong Kong and Mainland China.

We also select the best film equipment of various brands for our customers. All products are authorized original goods with factory warranty service*.

Please visit our online shop and purchase here:

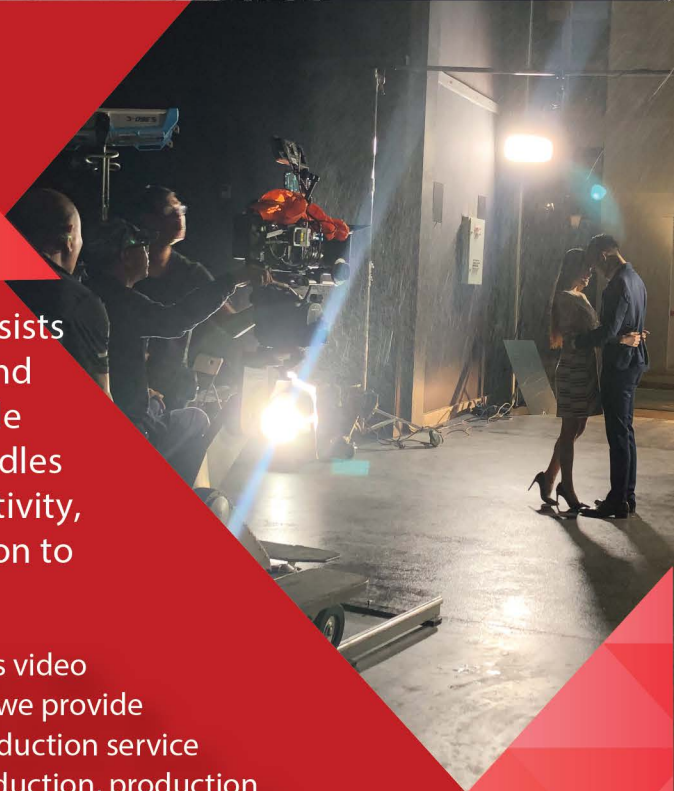

VIDEO PRODUCTION

Our production team consists of professional creative and production staff to provide one-stop service that handles the production from creativity, pre-production, production to post-production.

Salon Films customizes various video solutions. Regardless of scale, we provide one stop solution in video production service from creative ideas to pre-production, production and post-production for videos such as company and product videos, commercials, corporate branding videos, documentaries, short films, event highlight videos and live streaming.

WEBINAR AND ONLINE SERVICE

With webinars and online meetings becoming the new norm, Salon Films makes use of its professional outdoor broadcasting multi-cam system and filming equipment to produce high-quality visual and audio online programmes for clients, providing a realistic experience. Service is not limited to webinars, award presentations but also includes online remote production services.

Even with clients and directors miles away from the location, parties can monitor all parts of the production set through online streaming and video conference. Clients can direct through the video call by commenting on lighting, camera angles and talents as seen on the immediate camera feed live stream.

Exploring new opportunities, we now provide project management services for IT development projects.

- Airline industry connectivity solution - providing smartphone app for airline cabin attendant to communicate inflight without Internet connectivity
- Webpage and EC shop development – providing IT consultation with tailor-made online platform and business planning consultation
- Webcast server security management – For large scale event (e.g. AGM) providing high security server management.

FILM FINANCING & DISTRIBUTION

Salon Films has firmly established itself over the years with its rich history and experience in production, filming equipment and professional technical support. Utilizing our strong network as a leading company in Southeast Asia, China and Japan, strong at analysing the changing of market trends, together with the distribution network, includes and is not limited to theatrical release, IPTV and OTT platforms which developed rapidly in the past years.

We can work with you to devise the most suitable financing and investment plans for your project.
